Want to blow by those Pentium Punks like they're standing still? Bring your hot rod into the MacForce garage for the Rocket Tune-Up. We'll scour the inside with a host of utilities to keep your processor running hot, update and clean your system software for a smoother ride, buff out the dents and viruses, test-fire your drives and components, and then polish that sucker 'til it gleams.

ISN'T YOUR HOT ROD WORTH ***\$49.95?***
