YOUR LIFE VERSION 2.0

We're building something BIG at MacForce. It's a secret - very hush-hush, mum's the word and all that. The showroom and Demo Pods are open and unaffected, but you might see more guys than usual wearing hardhats and toolbelts.

- In this issue: Digital Dwelling, iChat Explained, See a G5 Live!, G5 + iSight Promo, Hot Links

And like so many things surrounding Apple and MacForce, there are rumors galore. We'd like to address a few of them:

- False: The Steve Jobs statue concept was scrapped because we couldn't get a zoning permit for the 60-foot titanium monolith.
False: The U.N. wants Hans Blix to inspect the construction site, but we've been uncooperative.
True: Your house will never be the same after you see what we're working on.

We'll unveil our project in just a few weeks, so no peeking when you drop by, okay?

Home is Where the Hardware Is

Everyone knows that Apple wants to make your computer the hub for your digital lifestyle. But we'll show you how it can be the hub of your entire home, from managing TV and music to controlling the lights and heat. Part One of Two.

iChat A/V: Sci-Fi or Non-Fiction?

You know those sci-fi movies with a "video-phone"? The ones where the hero just hits a button to have a face-to-face talk with his boss? That's how easy iChat A/V is. The future is now - all we're lacking is the flying cars. Learn how to use it.

PowerMac G5 Demonstration

Join us on Friday, September 19 for a free lunchtime display of the awesome new PowerMac G5. We'll load it up with a ton of pro software and watch it cut through your giant files like a hot knife through butter.
